

# ELIZABETH VALE SCHOOL NEWSLETTER

## TERM 4 WEEK 6 2022

### NEWS FROM MR J

# STEM at EVPS

At EVPS we are very lucky to have received some new technology. Students and teachers now have access to an AR/VR (Augmented Reality/ Virtual Reality) kit to enhance learning experiences.

### Augmented Reality

AR is when we view computer-generated graphics in our own environment. This can be great for students to engage with ancient artefacts or looking closely at objects. Students can also view designs they have made to see what they would look like in real life!

### Virtual Reality

Using VR, students view different computer-generated environments and experience places they may not normally access whilst at school (Our galaxy, landmarks and special places around the world). Students also create their own VR content such as tours of the school and fully immersive interactive games!

Our School Values: *Respect—Honesty—Excellence*

**First Aid training last week ran by St Johns**

Did you know that you always need to tell the person what you are doing? For example “I am going to help you rest, okay” **Sabin-Room 5**

Did you know that you need to roll the person on their side if they are unconscious? **Sharmila-Room 5**

Did you know that in first aid you shouldn't check for a pulse when someone collapses in front of you? That would only waste time! **Payal- Room 2**

**DRS ABCD** is really important in first aid because it helps you remember the steps for it. **D** stands for danger **R** stands for response **S** stands for send for help, **A** stands for airway **B** stands for breathing **C** stands for **CPR** and **D** stands for defibrillator. **Cooper- Room 2**

First aid is important to know when someone is in danger. Learning **DRSABCD** and knowing first aid could save someone's life! **C.O.W.S** is a really important acronym to know in first aid. **C.O.W.S** stands for Can you hear me? Open your eyes, What's your name? and Squeeze my hand. You use **C.O.W.S** to check if someone is conscious. **Van Dawt Chin -Room 2**

I was really glad to learn first aid from a professional because it made me really confident that I can use it in real life when I have to. I think first aid is really important because you never know when you might need to use it and by knowing first aid I know that if somebody ever gets hurt I have a really big chance to save their life. **Yousef - Room 2**

First aid is important because if someone collapses in front of you it's good to know what to do. **Ruby- Room 2**

## WELCOME TO THE VALE

### WELCOME

Welcome to all students and their families, we hope you enjoy your learning journey at Elizabeth Vale School.
